Dear Colleagues,

Mark Friday January 14th your calendar and plan to join us online for St. Michael’s Hospital 13 Annual Women’s Health Symposium.

We have invited some of our most informed and engaging clinicians to present concise and engaging lectures on important issues related to women’s health.

This year’s Mary Cassaday Keynote Lecture will be given by Dr. Catherine Allaire who is Medical Director of the Centre for Pelvic Pain and Endometriosis at BC Women’s Hospital in Vancouver, British Columbia. Dr. Allaire is a highly respected physician who has assisted in creating national guidelines on various gynaecologic conditions and has focused a significant part of her work and research on the etiology and management of pelvic pain and endometriosis.

This program will be recorded so that you can review all talks and information presented (available for one month post conference). We also plan to answer all your questions in either the live Q & A panel discussions with faculty or through the chat room.

So…grab a coffee, some breakfast and your laptop and plan to be with us for an enjoyable morning of learning on January 14th!

Dr. Sari Kives
Unity Health – St. Michael’s Hospital
Associate Professor, Department of Obstetrics & Gynaecology,
University of Toronto
