We are pleased to announce our first virtual Fetal Medicine Update. For many years, the University of Toronto Dept. of Obstetrics & Gynaecology, in partnership with university affiliated hospitals in the city of Toronto has developed a robust postgraduate education program with the goal of equipping health care professionals in the clinical management of their gynaecologic & obstetrical patients. In these exceptional times, our faculty are determined to continue be a source of educational support for you and we would like to you to join us as we move to a virtual platform for the next several months.

We have enlisted some of our most informed and engaging clinicians/teachers to present on many important topics in women's health.

- Most programs will move to a half day format
- More concise lectures with a Q & A box to ask all your questions
- Interactive polling, pre and post tests and online evaluations will give instant feedback
- All sessions will be recorded so that you will be able to view them at your convenience post conference
- Registration fees have been reduced significantly

Please plan to join us! We look forward to seeing you online and being with us for what we plan to be an enjoyable learning experience!
Registration (Fetal Medicine Update)
